About the OpenEDG Python Institute

The Python Institute is an independent non-profit project set up by the Open Education and Development Group (OpenEDG) to promote the Python programming language, train a new generation of Python programmers, and support professional careers in programming in the Python language, and in related technologies.

The Python Institute brings together a committed community of IT professionals, programming specialists, programming enthusiasts, education establishments, training organizations, companies, and volunteers who strive for quality development, assessment excellence, and the popularization of programming in the Python language.

One of the primary goals of the Python Institute is to set the standard of Python programming and use skills, as well as to provide development opportunities for individuals who wish to pursue a career related to Python programming.

In line with the strategic goals associated with the enhancement and development of careers in Python programming, the Python Institute provides an independent global framework for Python programming high-stakes examinations.

OpenEDG Python Institute Certifications

The Python Institute offers independent and vendor-neutral certification in the Python Programming language, provided in cooperation with Pearson VUE, the world's leader in computer-based testing.

The Python Institute is committed to the development of a global standard in Python programming certification, which will allow programming specialists, software developers, and IT professionals from all over the world to assess and document their programming skills objectively, and to gain recognition for their expertise.

The Python Institute has defined a global certification path for the Python programming language, and has developed an international Python programming examination standard.

Candidates can take certification exams at two competency levels (Associate and Professional) at over 5,000 Pearson VUE® Authorized Test Centers and Pearson VUE®

Certified Professional in Python Programming
PCPP

Certified Associate in Python Programming

Answer:

CONGRATULATIONS!

You have successfully created your Pearson VUE web account.

Please check your mailbox for an email confirmation.

The screenshot displays the Pearson VUE web profile interface. At the top, there are logos for Pearson | VUE, OPEN EDG, PYTHON INSTITUTE, and INSTITUTE. The navigation bar includes links for Home, My Profile, My Order, and Sign Out. The main content area is titled 'Home' and shows a message: 'You have successfully created a web profile.' Below this, there is a section for 'Open Education and Development Group Exams' with an 'Exam Catalog' and a 'View Exams' button. A link 'I want to see exams for a different testing program.' is also present. On the right, the 'My Account' section lists links for My Profile, Account Sign In, Preferences, Exam History, and My Receipts. The top right corner shows the user is signed in as 'Martin Adam Spark' with a 'Candidate Testing ID (CPI ID): CPI010330'. The footer contains copyright information for Pearson Education, Inc. and links to Terms, Privacy, and Contact.

Obtaining your Candidate Testing ID (CPI ID)

Once you have created your Pearson VUE web account, you are assigned a unique Candidate Testing ID (CPI ID). You can see it in the top right-hand corner of your web profile interface.

The Candidate Testing ID (CPI ID) is your identification number, and lets Pearson VUE and OpenEDG identify your account in the system.

If you are doing a programming course via [OpenEDG Education Platform](#) or as part of the [Cisco Networking Academy](#) curriculum, you will need your CPI ID to request an exam voucher.

FAQ

1. What do I need a Pearson VUE web account for?

You need to create a Pearson VUE web account to be authorized to test with the OpenEDG Python Institute and C++ Institute exams, both of which are part of the Open Education and Development Group.

2. What is a Candidate Testing ID (CPI ID) and how can I obtain it?

The Candidate Testing ID (CPI ID) is a unique candidate ID used for your C++ Institute and Python Institute registrations at Pearson VUE Test Centers (e.g., CPI123456). It may have been created when you previously registered for an exam, or if you already have an active online account with the C++ Institute or Python Institute, which are both part of the OpenEDG.

Please note that you only need one Candidate Testing ID and one online account to be able to register for C++ Institute exams and Python Institute exams.

The Candidate Testing ID will also be required to link your [OpenEDG Education Platform](#) student account with your Pearson VUE web account, and to request an exam discount voucher if you are an OpenEDG Education Platform or [Cisco Networking Academy](#) student.

3. I have created a Pearson VUE web account but cannot sign in to it. What should I do?

In most cases, you get instant access to your account, but sometimes it may take up to 24 hours. If you cannot access your account or have not received an email confirmation after creating an account (check your spam/bulk email folder), please contact the [Pearson VUE Customer Service](#).

4. I made a mistake when entering my personal or contact information. Can I correct it?

You can change or correct all the contact and personal information except your name, which cannot be edited online. To update your name on your web profile, you need to contact [Pearson VUE Customer Service](#).

Please remember it is essential that your name match exactly as it appears on the official ID you will present at the test center. Also, to be able to link your Pearson VUE web account with your OpenEDG Education Platform student account, the email address you provided on both accounts must be exactly the same (including the case).

5. I want to delete my Pearson VUE web account. What should I do?

Please contact [Pearson VUE Customer Service](#).
